MAINPOWER ELECTRICITY NETWORK CHARGES

MainPower New Zealand Limited (MainPower) provides distribution line services to a population of over 80,000 people in the North Canterbury region. We provide the network to deliver electricity to our region's homes, businesses, schools and communities.

MainPower Rebate

Qualifying Customers are entitled to the MainPower rebate and this is applied as a percentage discount off the fixed charge. The rebate is passed through as a discount on the power bill that you receive from your retailer (though some retailers choose not to show this discount separately on their invoices). Once a customer is connected to the MainPower network, they are a Qualifying Customer (this excludes temporary supplies). Customers connected to the former Kaiapoi Electricity network will have a discount applied to their fixed charge equivalent to the MainPower rebate.

Charge from 1 April 2024 (Excluding GST)

At 1 April 2024, the Qualifying Customer rebate and Kaiapoi Electricity discount, paid as a percentage discount of the fixed charge will be 17.5% for residential customers and 5.2% for non-residential customers.

Fixed line charges are shown as dollars per day, regardless of how much electricity you use. Variable line charges are shown as dollars per kWh (kilowatt hour). This is applied to the amount of electricity you use.

(Excluding GST)				Fixed				Variable
