MAINPOWER NEW ZEALAND LIMITED ASSET MANAGEMENT PLAN
PLANNING PERIOD: 1 APRIL 2020 – 31 MARCH 2030
CORRECTION
SCHEDULE 11B: REPORT ON FORECAST OPERATIONAL EXPENDITURE

In June 2020 it was discovered that the above schedule had an error at line 22 Service Interruptions and Emergencies. The constant dollar forecast for FY22-FY30 as notified showed \$1.5m per year. This number was an incorrect carry over of the number used in the Asset Management Plan for the 2019-2029 period. This error was reflected in table 9.1.1 in Section 9 of the Asset Management Plan as disclosed on 1 April 2020.

The error in Schedule 11B: Report on Forecast Operational Expenditure Line 22 Networks Faults has been corrected to show expenditure of \$700,000 for financial years 2022 – 2030 in constant dollar values. The table in the Asset Management Plan (Table 8.1 renumbered due to a formatting change) has been updated to show the corrected sum.

The AMP, including the affected schedule, was republished on 19 June 2020, together with a Director's Certificate in accordance with Clause 2.9.3 of the Electricity Distribution Information Disclosure Determination 2012.
